ADCS 2006

The Eleventh Australasian Document Computing Symposium

**Brisbane, Australia
11 December 2006**

Chairs' Preface

These proceedings contain the papers of the Eleventh Australasian Document Computing Symposium hosted by, and held within, the Faculty of Information Technology at the Queensland University of Technology.

The keynote address, twelve papers and two posters reflect the breadth and interest of the Australian research community in the area of document computing.

The twelve papers here were selected from seventeen submissions. Every paper had three peer reviews. Submitted papers were anonymously reviewed at their full length by experts in the area. Dual submissions were explicitly prohibited.

The members of the program committee and the extra reviewers deserve special thanks for their contribution to ADCS2005.

The symposium includes many formal presentations, but perhaps its greatest benefit lies in the opportunity it provides for document computing practitioners to get together informally and to share ideas and enthusiasm.

Contents

Keynote Address

Robert Dale (Macquarie University)

Papers (Fully Refereed)

Some Observations on User Search Behavior

Yuye Zhang and Alistair Moffat (University of Melbourne)

Examining the Pseudo-Standard Web Search Engine Results Page

Andrew Turpin, (Royal Melbourne Institute of Technology), Bobo Billerbeck (SENSIS Pty Ltd), Larry A. Abel (Royal Melbourne Institute of Technology) and Falk Scholer (University of Melbourne)

Improving Rankings in Small-Scale Web Search Using Click Implied Descriptions

David Hawking, Tom Rowlands and Matt Adcock (CSIRO)

My Instant Expert

George Ferizis and Peter Bailey (CSIRO)

Preliminary Investigations into Ontology-Based Collection Selection

John D. King, Y. Li, Peter D. Bruza and R. Nayak (Queensland University of Technology)

Document Related Awareness Elements in Synchronous Collaborative Authoring

Gitesh Raikudalia and Hao Lan Zhang (Victoria University)

A Sequence Based Recommender System (for Learning Resources)

Dean Cummins, Kalina Yacef and Irena Koprinska (University of Sydney)

Information Access Efficiency: A Measure and Case Study

Shijian Lu and Cecile Paris (CSIRO)

The Performance of Query Formation Interfaces for XML Retrieval

Alan Woodley, Shlomo Geva and Sylvia Lauretta Edwards (Queensland University of Technology)

InexBib – Retrieving XML Elements Based on External Evidence

Alexander H Krumpholz and David Hawking (CSIRO)

Element Retrieval Using a Passage Retrieval Approach

Weihua Huang, Andrew Trotman and Richard O’Keefe (University of Otago)

Differentiating Document Type and Author Personality for Linguistic Features

Scott Nowson (Macquarie University) and Jon Oberlander (Edinburgh University)

Posters (Refereed)

Dual Interactive information Retrieval

Vitaliy Vitsentiy (Queensland University of Technology)

Enhanced Web-Based Translation Extraction for English-Chinese CLIR

Chengye Lu, Yue Xu and Shlomo Geva (Queensland University of Technology)
